**LET'S GET TO KNOW
KELLY BURGESS PHOTOS & GLOW**

I am a teller of stories be it the spoken word or by photographs I will tell a story.

I first came to the Spanish Peaks region on family vacations in the mid 1970s. Dad would sit in the break room at the steel mill and listen to where everyone else was going then go someplace else. The Spanish Peaks was one of those places. After retiring from Military service, getting the boys out of the house and settled in their lives Patty and I came to Walsenburg. For me a homecoming of sorts , her a new Adventure. I began taking pictures shortly after arriving in Huerfano County and have mainly kept my focus inside the county as there is so much variation in both wildlife, terrain and elevation. The live edge planks I use for my frames and furniture are harvested from beetle kill and burn scars from local sawmills.
