

LET'S GET TO KNOW SCRAP HAPPY FABRICS

I credit the joy I receive from fabric to my mother and grandmother. My mother taught me to sew at a very young age. She gave me my first sewing machine when I was 5. Both of these amazing women sewed them on clothes (as well as mine), drapes, quilts, and everything else that was needed. My enjoyment has only grown through the years.

I am pleased to share with you the joy I get from fabrics.
