

LET'S GET TO KNOW SECOND CHANCE

Hi, my name is Debbie Tanzy. I have been a crafter for as long as I can remember. In 2017, I bought and remodeled an old adobe house in the Gardner area. I moved here to teach at the Gardner Valley Charter School. As a teacher, I have summers off and I use this time to work on my house and craft projects. I started recycling and upcycling the "junk" I found on the property and around the house and turned it into useful household items. I love the challenge of taking "junk" and turning it into something beautiful, or giving unwanted items a second chance with a coat of paint and a new look!
