

LET'S GET TO KNOW MOON MOUNTAIN

Passionate about the wonder, romance, and beauty of the natural world, Stacy Arnold-Strider strives to preserve the precious and fleeting moments of life and nature with each snap of the lens. Stacy's photographs are visual love letters to the extraordinary life on planet Earth, and visual time capsules for current and future generations.

Stacy also enjoys crafting and creating lovely and useful personal, home decor, and garden treasures in a variety of materials and forms.

In 2022, after four decades on the West Coast, Stacy relocated to Huerfano County with her husband and three fur babies, forming Moon Mountain Studios as a new venture in art and life.
